

It was a dream ten years in the making: Curl Moncton is now home to ten sheets of ice, all housed under one roof, doubling its capacity and opening endless possibilities. Curl Moncton has significantly increased the ice time available to its youth programs, the future of the sport, and tripled the U12 membership in the first three months of operation.

The expansion has created room for growth in the day and evening leagues, which were operating at near capacity, and allows Curl Moncton to accommodate corporate, recreational and community rentals that it previously turned away. With five new sheets of ice, Curl Moncton can host special events alongside league play and can attract new events that require more than the five sheets of ice.

New classroom facilities allow for more training of members, potential members and curlers from around the world. It took a dedicated, passionate group of volunteers to make the dream a reality. Curl Moncton is excited for the future of curling in the greater Moncton region.
